

ST PETERS GAA

LET'S CREATE THE FUTURE & LEAVE A REAL AND LASTING LEGACY

You can play your part:

We now only have 250K left to raise to get to our target.

A huge thanks to members and the Dunboyne community who have already donated and played their part to date.

If you haven't played your part yet, do it **TODAY** so your club can access a 3 million worth facility in a once in a lifetime opportunity for 650k.

Supporting this plan is only a click away. Log on to dunboynegaa.ie/create for full details

THE RUMOURS ARE TRUE!!

We can confirm that we are progressing with **Phase 1** of the development from September to ensure that it will be ready for **January 2021**.

This will include:

- State of the art all-weather pitch (100m x 62m)
- Floodlights, fencing, ball stop nets on the main pitch

JCA Architects have designed pitch, Hayden Turfcare have been appointed as Project Managers to oversee the project. The re-tendering of this work is expected to be completed in August.

OUR FUTURE:
